- Remember we are made up of mostly volunteers so please be kind!

## Stories of impact: this month's story is about how Olivia went from homelessness to back on her feet.

Olivia was once homeless and struggling to get by. She felt like she had hit rock bottom and didn't know where to turn.

That's when she discovered our local charity organisation that helped provide food, shelter, and resources for those in need. With their help, Olivia was able to get back on her feet. She received job training and found employment, which allowed her to save up enough money to eventually secure her own apartment.

The support and guidance from our charity

organisation gave Olivia hope and a renewed sense of purpose. She is now giving back by volunteering her time and resources to help others in need. Olivia's story is a testament to the power of charity and how it can change lives for the better.

By creating environments that feel like home, we can help those who have experienced hardships feel a sense of comfort, security, and hope for the future.

Let's continue to support local charity organisations that make a difference in people's lives and consider how our design work can positively impact those in need!
